

Delivering Construction-Operations Building information exchange (COBie) Using Autodesk Revit

by

E. William East, Shawn O'Keeffe, Richard Kenna, and Emma Hooper

- The First Comprehensive COBie How-To Guide
- Best-Practices for Integrating COBie with Design Workflows
- Learn and Apply the COBie Design Standard-of-Care
- Over 30 Architecture and MEP Example Models & Files
- Unlock the Power of the COBie Extension
- Simplify Complex Classification Codes
- Create and Share Custom Settings with Your Team

Written by the inventor of COBie from the US, BIM Technologists from England and Ireland, and MEP Engineers from Ireland. These 151 pages and 125 figures and tables show you how to transform what you already deliver - on every building no matter how big or small - into high quality, standard-compliant COBie deliverables.

What did our reviewers say about “Delivering COBie Using Autodesk Revit”?

“...an **unparalleled guide**... deliver COBie on any building, as easily as possible.”

David Light, Autodesk Senior Customer Success Manager

“...for **new or experienced** Revit users... to **ensure successful COBie** deliverable.”

TJ Meehan, Revit Development Manager and Consultant, CADD MicroSystems

“...delivers **real-word insight**... an **essential read**.”

David Philp, Global BIM Director, AECOM

“...benefits **designers and owners**... to implement COBie without this book would be folly.”

Dana K. Smith, FAIA
